

Decorative board panel with exposed edge door and frame

Description

This 75mm deep access panel has an open door tray and an exposed edge frame for accepting decorative board on site. It is non fire rated and the door is 27mm deep with steel sections within set to accept 12.5mm boards. There would need to be a skim or fill between the edges of the door and boards. Similarly around the frame. The panel has pin hinges fitted to the frame which pivots within the door. This can be removed and refitted on site with ease. The panel can be fitted with a budget lock or touch catches. There are fixings holes on the panel.

Material

Our range of panels are made from 1.2mm Zintec steel for maximum rigidity, other materials are available on request such as stainless steel. As standard our panels are finished in a polyester powder coating - White RAL 9010. For other colours contact our office.

Dimensions

The actual size of the structural opening needs to be 7mm larger than the inside of the frame, ie structural opening for a 0600x0600 would need to be 0607x0607.

Additional Locking Options

The Decorative Board Panel is available with the following locking options:
5mm bit insert, touch catch, budget lock
