

Plasticdor Circular

Non – fire rated

Application

Access Panels are designed to conceal and secure areas in walls and ceilings where access is required to electrical, water and maintenance services, concealed behind or above them. This access panel requires no mechanical fixings or stud work is required to fix to.

Description

This plastic circular access panel has a simple twist action on a fine thread to easily open or close. It has six concealed face fixing points which allow for an easy screw fix installation into any wall finish. An “O” ring is embedded within the inner section of the frame to give an airtight seal.

Materials and finishes

Precision moulded from UV stable PVC to give an excellent and consistent finish throughout the circular access panel.

Stocked Sizing

Size	Clear Opening	Cut out size	Overall frame size	Depth
102mm	102mm	115mm	158mm	8mm
